 Books 0.5.1a Author: Tafflor RPG Maker MV Version: Sprite Category: Fairy tale, Fiction Characters: Faylinn The quest to explore the world beyond her home has begun. Her destination is utterly uncharted, so surely this will be the adventure of a lifetime. But Fairyland is just the start of a much grander story. Faylinn is a classic RPG Maker sprite. She must learn to fight, to explore the world around her and to learn to survive. She must begin her adventure at the very beginning and you must guide her on this wondrous adventure. As a group, this is a realistic RPG with time limits that runs on Fate Core. The Tale of the Day 07.08.2018 TL:DR 0.5.1 is here! Since Tafflor released the last version of this game, I decided to implement some new things. It's still a fairy tale, but there's now a prologue. Also, we've implemented more multi-choice dialogue options and all of the parents are gone. All of the clothing and hair styles have been replaced with new ones based on sprite sprites and the levels have been repainted. I'm hoping that this update will be more favourable to players who aren't yet comfortable with Fate and doesn't last as long as our previous game, but I'll just have to wait and see There is, of course, a faction of nasty fairies waiting in the shadows to do as they will. Want to overcome their quest? Take a look at the rules at the bottom of this page. Anywho, enjoy the what is the first

part in the first chapter of Faylinn's Quest. You must be signed in to add reviews. If you're not already signed in, click here.
