Roads of Rome is a series of real-time strategy (RTS) games and also the first game of the Roads of Rome series to feature 3D graphics and full-3D vehicular combat. Unlike the previous two games in the series, Roads of Rome 3 does not take place during the ancient Roman Empire, but instead in an unknown future era, where the Western Roman Empire has split into a number of factions. The player is able to choose from a variety of character classes, each with their own unique set of abilities. The game also features new campaign modes, such as new Dark Ages mode where the player can guide a "leader" through a medieval fantasy world. 5ec8ef588b
